

TOP SECRET

Official Diary

Tuesday, 10 July 1951

25X1

[redacted] called and reported that [redacted] would like copies of all efficiency reports on USAF personnel with CIA. Told him to send them to [redacted] if Mr. Wolf agreed.

25X1

Worked with Chet Hansen in drawing-up intelligence flow chart for DCI briefing of O'Mahoney. We have not heard as yet whether the O'Mahoney briefing can be set up for Thursday.

25X1

Called on [redacted] to check what we are supposed to do about progress report for NSC 68/4. This will be taken up at the Senior Staff meeting this afternoon and I will have a memorandum for the D/DCI.

Pforzheimer asked about the semi-annual report on atomic energy. Told him that this had gone out to the IAC agencies for concurrence and to advise the Committee that it would be ready next week. Spoke to the DCI about the semi-annual atomic report and he stated that he saw no reason to bring this up at an IAC meeting. Air Force and Navy can submit dissents if they want to.

A good part of the day spent in arranging for briefing materials for the DCI.
